JUSTIN DAVID BETHEA

RELEVANT SKILLS

I'm a problem solver who uses my experience, training and strong research skills to overcome challenging technical issues. I am comfortable on the front and backend of a website development project. I am a resourceful IT generalist with an up to date administration skill-set and strong knowledge of legacy systems. I embrace zero cost solutions and strive to maximize the impact of budget dollars. I have a thirty year history of career professionalism. I learn every day and have no intention of stopping.
